May 8, 2024

Pillsbury Lake Abutter,

SOLitude Lake Management, 590 Lake Street, Shrewsbury, MA 01545, Telephone 866-480-1271, has been contracted by the Pillsbury Lake Village District to chemically treat portions of Pillsbury Lake in Webster, for control of nuisance aquatic weed growth. Portions will be treated with the USEPA/State registered herbicide Sonar Q (fluridone) EPA Registration Number 67690-3 on or about Thursday, May 23, 2024, in accordance with Special Permit SP-106 issued by the NH Division of Pesticide Control. Follow-up (booster) treatments with Sonar Q (fluridone) and Sonar Genesis (fluridone) EPA Registration Number 67690-54, will be performed on or about Thursday, June 6, 2024 and Tuesday June 25, 2024.

The following temporary water use restrictions will be imposed on the day of treatment for all treatments:

- No swimming for 6 hours following each treatment.
- Do not use this water for irrigation or for mixing sprays for agricultural or ornamental plants, established row crops / turf and plants until further notice. Irrigation restrictions will be lifted according to a timetable specified on the product label and/or, as applicable, on the basis of analyses of the water to determine that herbicide concentration has dropped to acceptable levels. These restrictions apply to all intakes within 1,320 feet downstream of the treatment area, and to all wells within 50 feet of shoreline that itself is within 1,320 feet downstream of a treatment area. Contact Peter Beisler at SOLitude Lake Management, 590 Lake Street, Shrewsbury, MA 01545, Telephone 866-480-1271, email NewHampshire@SolitudeLake.com for information on the release dates of these restrictions or for additional information on the irrigation restrictions.

The shoreline will be posted with signs warning of the temporary water use restrictions that will be imposed, immediately prior to treatment. If you have any questions concerning this treatment, contact SOLitude Lake Management using the information above.
